

These kids need our immediate help!

They were seeking a safe haven here, but are now stranded, languishing in a sprawling tent camp in Matamoros, some for almost one year, due to our own inhumane immigration policy. As the pandemic looms, the needs for asylum seekers at the border and in our communities are increasing and critical. They are more vulnerable than ever before.

BAY AREA BORDER RELIEF is fundraising on their behalf once again. Since June 2018 we've made 7 trips to the border--McAllen and Brownsville, TX and more recently Matamoros, Mexico. We've taken your donated clothing from all over the SF Bay Area, shopped for new basics, cooked and served dinner for 1,000s, provided legal, translation and trauma services for asylum seekers both at the border and closer to home. Their survival will depend on additional safeguards we can help provide in the interim. Let's all do what we can! bit.ly/BABRatPVF
